Ontario's finest fresh foods were served to World leaders this June and Thornloe Cheese is proud to be part of the ingredient list

Thornloe, ON - Fresh, local, and exceptional Ontario foods were represented at the recent G8 Summit held at the Deerhurst Resort in Huntsville, Ontario, this June. Executive Chef, Rory Golden, was responsible for planning, preparing and serving all 22,000 meals for the event. Thornloe Cheese was hand-picked to represent Ontario's finest cheeses by Chef Golden at this historic event for the Muskokas.

With preparations extending for more than a year, with at least five dress rehearsals, and countless testing and retesting of recipes, Chef Golden's focus was to provide the leaders with nice, plated meals with very flavourful food.

"For over 70 years Thornloe Cheese has produced a respected brand in Northern Ontario. We are pleased that our fine cheeses were selected to be presented to leaders representing the World. We are committed to producing superb traditional and specialty cheeses made with 100% Canadian milk," says Brian O'Connor, Executive Director of Thornloe Cheese. "We are thrilled to add the fine accomplishment of making the ingredient list at such a high profile world event, to our list of successes."

Thornloe Cheese has been recognized with several awards including the Dairy Farmers of Canada Grand Prix Finalist Award, the British Empire Cheese Show Grand Champion Award and several awards from the Royal Agricultural Winter Fair Dairy Products Competition.

With new specialty products launched and several new products being developed, Thornloe Cheese is focused on catering to the expanding tastes of our cheese fans. Ask your local fine food retailer if they carry our award winning Asiago, Romano, Charlton, Evanturel, and Temiskaming cheeses plus many more or visit our online store at www.thornloecheese.ca
